

## DIGITAL PORTFOLIO

Student Name : Yuvarahul R

Register No and NMID : 222404631 (asunm1301222404631)

---

Department : Bsc Computer science with Artificial  
Intelligence

College : Agurchand manmull Jain College  
(Madras University)

# PROJECT TITLE

---

## DIGITAL PORTFOLIO

### USING

HTML CSS JAVASCRIPT

# AGENDA

---

- 1.Problem Statement
- 2.Project Overview
- 3.End Users
- 4.Tools and Technologies
- 5.Portfolio design and Layout
- 6.Features and Functionality
- 7.Results and Screenshots
- 8.Conclusion
- 9.Github Link

# PROJECT STATEMENT

---

- In today's digital era, traditional resumes alone are not-enough to showcase skills and projects effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievements, skills, and experiences.

# PROJECT OVERVIEW

---

- The project is a Student Digital Portfolio built using HTML and CSS.
- It consists of four main pages:
- Home Page: A welcome section with navigation to other pages.
- Certificate Page: Displays a list of earned certificates (e.g., HTML5, CSS3, JavaScript).
- Resume Page: Contains basic resume details like name, email, education, and skills.
- Contact Page: Provides contact information (email, phone, location).
- A navigation bar links all pages, and a shared style.css file ensures consistent design with a clean layout, responsive navigation, and highlighted active links.

## Home .html (Homepage):

- Acts as the landing page for the dashboard. It introduces the user and guides them to other sections.
- 
- A navigation bar with links to Home, Certificate, Resume, Contact, Project.
  - A welcome message and instructions.
  - Need:
  - This page provides a starting point and makes navigation user-friendly.

## Contact.html:

- \*Provides contact details for communication.
- \*Email, phone number, and location information.

## Need:

---

- \*Essential for networking, allowing teachers, recruiters, or peers to reach out directly.

## Resume.html:

- \*Contains the student's resume information.
- \*Basic details: Name, Email, Education, Skills.

Structured in a clear format.

- \*A professional way to explain qualifications, Education, technical skills.

## Certificate.html:

Displays a list of the student's certifications.

Navbar for navigation.

---

A list of sample certificates like HTML5 Fundamentals, CSS3 Advanced, JavaScript Essentials.

Need:

Important for showcasing the student's achievements and technical expertise.  
Helps recruiters or teachers quickly see skills backed by certifications.

## Project.html:

\*Display the project in the grid with navigation bar.

### Project:

---

\*E-learning website (front-end)

### Tools:

HTML, CSS, JAVASCRIPT, BOOTSTRAP

## Skills & Education:

Skills Displays the knowledge and soft skills and tools which we have learned.

Education Displays the timeline of the school and college Education.

# WHO ARE THE END USERS?

---

- Students
- Job seekers
- Freelancer
- Professionals

Students:

- \*Students can use this platform to present their academic achievements, certificates, and resumes.

---

- \*It helps them showcase their learning progress, skills, and projects in an organized way.

Job seekers:

- \*Job seekers can use this website as an online portfolio.

- \*They can share the link with recruiters, making it easier to review their resume, certificates, and contact details in one place.

### Freelancers:

- \*Freelancers can display their skills, certifications, and past work experience.

- \*Helps in building trust with clients by showing verified achievements and professional background.

---

### Professionals:

- \*Working professionals can use this as a digital CV to highlight their career growth, achievements, and expertise.

- \*It makes their profile more interactive and accessible compared to a traditional resume.

# TOOLS AND TECHNIQUES

## HTML5:

---

- \*Used for structuring the website.
- \*Defines sections like Hero, Skills, Education, Projects, Certificates, Resume, Contact.
- \*Provides semantic elements (<section>, <nav>, <footer>, etc.).

## CSS3:

- \*Provides styling and layout.

### Includes:

- \*Variables (Design Tokens) for consistent colors, shadows, and spacing.
- \*Responsive Design using media queries (@media (min-width: 860px)).
- \*Animations & Transitions (transition, [data-animate] effects).
- \*Dark/Light Theme using :root variables and theme toggling.

## JavaScript (Vanilla JS):

- \*Adds interactivity and functionality:
- \*Theme Toggle (dark/light mode, stored in localStorage).
- \*Active Link Highlight while scrolling.
- \*Entrance Animations with IntersectionObserver.
- \*Project Filtering by tags (HTML, CSS, JS).
- \*contact Form Handling (mailto integration).
- \*Copy to Clipboard for contact info.
- \*Back-to-Top Button with smooth scroll.
- \*Modal Preview for project demos.

## Browser APIs:

- \*IntersectionObserver API → detects when sections enter the viewport.
- \*Clipboard API → copies email/phone to clipboard.
- \*LocalStorage API → saves theme preference.
- \*Mailto protocol → opens email client with pre-filled subject & message.
- \*External Tools (used indirectly)
- \*VS Code (for development).

## ✂ Techniques Explained

### 1. Responsive Web Design:

Uses flexbox and CSS grid for layouts (.skills-grid, .grid, .contact-grid).

Clamp() function makes font sizes flexible across screen sizes.

Media queries adjust layout for desktop vs. Mobile.

---

### 2. Theming (Light/Dark Mode):

CSS variables (:root and :root.light) define two color palettes.

JavaScript toggles themes and saves preference in localStorage.

### 3. Navigation Enhancements:

Sticky navigation bar (position: sticky).

Scroll-based active link highlighting via IntersectionObserver.

Smooth scroll behavior (html { scroll-behavior: smooth }).

### 4. Animations:

Entrance Animations → Sections fade/slide in with [data-animate].

Hover Effects on buttons, cards, and navbar links.

Reduced motion support → disables animations for accessibility if user prefers reduced motion.

## 5. Project Showcase:

Project cards with tags (HTML, CSS, JavaScript).

Filter buttons dynamically hide/show projects using JavaScript.

Modal Dialog to preview project screenshots or details.

## 6. Skills Visualization:

---

Progress bars show skill levels (.bar > span with width percentages).

Soft skills displayed as badges.

## 7. Contact System:

Two methods:

Form (mailto): opens user's email client.

Direct Contact Cards: email, phone, location, social links.

Clipboard Copy Button for quick copying of email/phone.

## 8. Resume Integration:

Resume preview image (resume.jpg).

Download options in PDF and JPG

Print Option (window.print())

## 9. Accessibility:

ARIA labels (aria-label, aria-selected). Contrast maintained with design tokens. Respects user settings for reduced motion.

## 10. Performance & Usability:

Lazy animations only trigger when visible.

---

Minimal dependencies (no external libraries, pure HTML/CSS/JS).

Back-to-Top Floating Button for quick navigation.

### CODE EDITOR:

#### VS CODE:

Visual studio (VS) code is used for development of portfolio code.

### HOSTING PLATFORM:

#### GITHUB:

Gitub is used for to create repositories for portfolio code and to deploy the project.

# PORTFOLIO DESIGN AND LAYOUT

---

## DESIGN:

### 1. Theme & Style

Uses dark mode by default with a toggle for light mode.

Color palette includes brand blue (#2233aa), accent pink (#aa0491), and soft background tones.

Rounded corners, card-style containers, and shadows give a modern UI feel.

Subtle animations on scroll (fade-in, translateY) to make sections engaging.

Responsive design with CSS Grid and Flexbox, adapting well to mobile and desktop.

## 2. Typography & Icons:

System default fonts for speed and clarity.

Clear hierarchy with large titles (clamp scaling), subtitles, muted descriptive text.

Simple emoji-based favicon (👤💻).

Buttons use gradient backgrounds for emphasis.

---

## 3. User Experience:

Sticky navigation bar with active link highlight.

Smooth scroll, back-to-top floating button, and interactive project filter.

Light/dark theme persists via localStorage.

Contact form uses mailto (direct email) without storing data.

## LAYOUT:

### 1. Navbar:

Sticky top bar with name/logo, links to sections (Home, Skills, Education, Projects, Certificates, Achievements, Resume, Contact), and theme toggle.

---

### 2. Hero (Home):

\*Left: Introduction (name, role, description, chips, CTA buttons).

\*Right: Profile picture (avatar).

### 3. Skills:

\*Grid layout of skill cards with progress bars (HTML, CSS, JavaScript, Tools).

\*Extra soft skills displayed as badges.

#### 4. Education:

- \*Vertical timeline layout showing current studies and HSC.

#### 5. Projects:

- \*Project filter buttons (All / HTML / CSS / JavaScript).

---

- \*Responsive grid of project cards with title, description, tags, and buttons (GitHub, Preview).

#### 6. Certificates:

- \*Simple unordered list of certifications.

#### 7. Achievements:

- \*List of activities, hackathons, volunteering.

- \*Badges for personality traits.

#### 8. Resume:

- \*Resume preview image + download buttons (PDF, JPG) and print option.

## 9. Contact:

- \*Two-column grid (on desktop):

- \*Left: Contact form.

- \*Right: Contact cards (Email, Phone, Location, Social).

---

- \*Includes quick actions: call, WhatsApp, copy, maps.

## 10. Footer:

- \*Copyright.

- \*Auto-updated year and last-updated month/year.

## 11. Floating Action Button (FAB):

- \*Back-to-top button appears after scrolling

## 12. Modal:

- \*For project previews (with placeholder image).

# FEATURES AND FUNCTIONALITY

---

## Features:

- \*Responsive Design: Uses CSS Grid/Flexbox for mobile-friendly layouts.
- \*Dark/Light Theme Toggle: Users can switch themes, and preference is saved in localStorage.
- \*Smooth Scroll & Animations: Sections animate when scrolling into view.
- \*Sticky Navbar: Navigation stays visible at the top.
- \*SEO & Social Meta Tags: Optimized <meta> for search engines and social media previews.

## Interactive Functionality:

\*Theme Toggle ( button).

\*Project Filtering via category buttons.

---

\*Modal Preview for projects.

\*Contact Form opens default email client with pre-filled details.

\*Copy-to-Clipboard for phone/email.

\*Back-to-Top Floating Button (appears after scrolling).

\*Accessibility Support: Honors user's "reduce motion" setting.

Print Mode Optimization: Hides navbar, footer, buttons when printing resume.

# RESULTS AND SCREENSHOT

---

The results of the portfolio where executed and created by HTML,CSS,JAVASCRIPT, By this first step of the html code where executed below:

---

## One-page Resume

Click the button below to download the PDF. The image preview is optimized for quick viewing.

## Tech I Work With

Focused on web fundamentals with growing experience in modern tooling.

### **HTML5**

Semantic markup, accessibility, forms

### **CSS3**

Layouts (Grid/Flex), responsive, animations

### **JavaScript**

DOM, fetch, components, ES6+

### **Tools**

Git & GitHub, VS Code, Figma (basic)

Soft skills: Communication, Teamwork, Problem Solving

## Things I've Built

[All](#)[HTML](#)[CSS](#)[JavaScript](#)

### E-learning Website

A responsive front-end for an online learning platform with course cards, search, and interactive UI components.

HTMLCSSJavaScript

[GitHub](#)[Preview](#)

### Portfolio v1

First iteration of my personal site. Improved semantics and accessibility.

HTMLCSS

### Mini JS Apps

Collection of small JavaScript widgets (todo, color picker, quiz).

JavaScript

## Certifications

- **HTML5 Fundamentals**
- **CSS3 Advanced**
- **JavaScript Essentials**

# CONCLUSION

---

- This portfolio website successfully highlights the technical skills, projects, and achievements of my career in a structured and interactive way.
- The portfolio itself also contributes positively by serving as a model for students and young developers who want to showcase their skills professionally.
- Overall, this project is not just a personal showcase but also reflects a broader vision using web technologies to create solutions that improve learning, communication, and opportunities for others in society.
